

# Carbon Reduction Plan

Supplier name: Seca Ltd

Publication date: 14/07/2025

## Commitment to achieving Net Zero

Seca Ltd is committed to achieving Net Zero emissions by 2045

## Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline Year: 2023	
Additional Details relating to the Baseline Emissions calculations.	
<p>We have restated our baseline calculation to include the upstream emissions of scope 3 energy use. It is based on our financial accounting year of January-December.</p> <p>Our Baseline calculation includes:</p> <ul style="list-style-type: none"><li>• Scope 1: Direct Emissions</li><li>• Scope 2: Indirect Emissions</li><li>• Scope 3 Categories: 3: Fuel and energy related activities: 4: Upstream transportation &amp; distribution: 5: Waste generated in operations: 6: Business travel/Hotel stays: 7: Employee commuting/Teleworking: 9: Downstream transportation &amp; distribution:</li></ul>	
Baseline year emissions:	
EMISSIONS	TOTAL (tCO <sub>2</sub> e)
Scope 1	78.4 tCO <sub>2</sub> e
Scope 2	1 tCO <sub>2</sub> e
Scope 3 (included sources as detailed above)	159.5 tCO <sub>2</sub> e
Total Emissions	239 tCO <sub>2</sub> e

# Carbon Reduction Plan

## Current Emissions Reporting

Reporting Year: Jan 2024 to Dec 2024	
EMISSIONS	TOTAL (tCO <sub>2</sub> e)
Scope 1	72.9 tCO <sub>2</sub> e
Scope 2	2.5 tCO <sub>2</sub> e
Scope 3 (included sources as detailed above)	115.4 tCO <sub>2</sub> e
Total Emissions	190.8 tCO <sub>2</sub> e

## Emissions reduction targets

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets.

We project that carbon emissions will decrease over the next five years to 184.7 tCO<sub>2</sub>e by 2028. This is a reduction of 22.7 %

Progress against these targets can be seen in the chart below:

# Carbon Reduction Plan

## Carbon Reduction Projects

### Completed Carbon Reduction Initiatives

The following environmental management measures and projects have been completed or implemented since the 2023 baseline and the measures will be in effect when performing the contract. The carbon emission reduction achieved by these schemes equate to 48.2 tCO<sub>2</sub>e, a 20.2% reduction against the 2023 baseline.

- Moved from UPS to DPD who have some electric vehicles.
- Put signage up in offices and toilets to turn off lights and taps

### Future Carbon Reduction Initiatives

In the future we hope to implement further measures such as:

- Plan to use public transport for journeys where possible

## Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans. Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard and uses the appropriate Government emission conversion factors for greenhouse gas company reporting.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

### Signed on behalf of the Supplier:
